

Foxhill Bilingual International School Newsletter November 2023

NOVEMBER HIGHLIGHT: BONFIRE NIGHT AND AFTER-HALLOWEEN PARTY

We want to thank all Foxhill families and friends for the fun-filled afternoon!

A special thank you to Rainhard and Christian for their much-appreciated effort in the preparation of and during the event!

PRE-SCHOOL

Trip to Bäcker Ruetz

Pre-schoolers turned into little chefs when they went on a trip to Bäcker Ruetz. Guided by the professional bakers, they rolled and cut out biscuits. The children did not only get to try their freshly baked biscuits but were sent home with a bag full of them. To finish off the trip the children enjoyed the sunshine while playing at the fantastic playground close to the bakery.

We are looking forward to learning about a different topic next year!

ODD SOCKS DAY

What a joy it was to celebrate Odd Socks Day - we laughed about the mismatched combinations of socks we found in our classroom that day but also proudly presented our socks to each other. Most importantly, Odd Socks Day invited us to see the magic in individuality!

PRIMARY SCHOOL

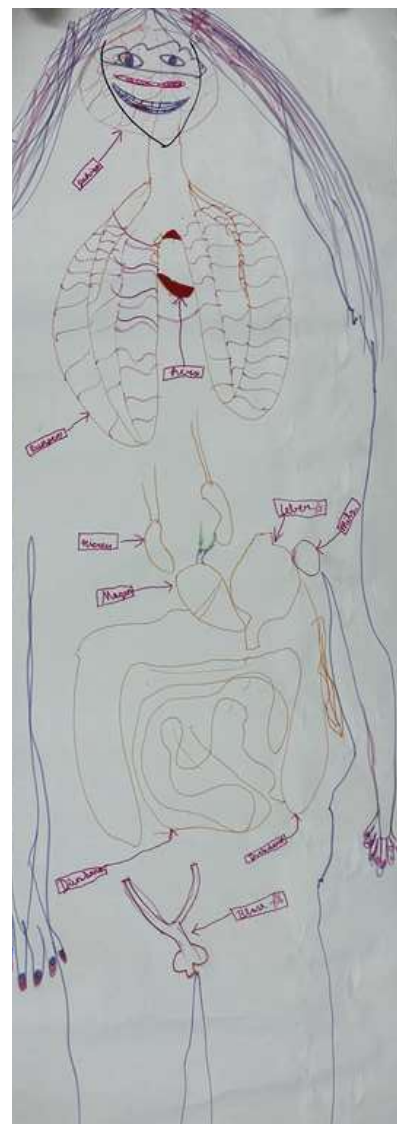

In November we started thinking about Christmas...

We all worked together to put together an advent calendar, which involved a lot of paint! We hope you will agree that it looks very fine indeed!

We also made our own snowglobe pictures, which will soon tell a story...

In non-Christmassy news, the children had great fun learning about the internal organs of the body and where to place them.

Last but not least, we performed My Cat likes to Hide in Boxes twice for parents and other children in the school. Despite the challenge of missing children and changing roles, we think everyone had fun.

SECONDARY SCHOOL

The secondary school pupils love their cooking lessons. This month they made their own pasta.

AFTER SCHOOL CLUB

The Afterschool Club (AFC) at Foxhill provides a positive and structured environment for children to develop new skills and pursue their creative interests. This experience helps them discover and nurture their talents outside the traditional classroom setting.

The children at the Afterschool Club have been quite busy over the past few months. The students have engaged in various creative activities, such as crafting collages from natural materials, stone painting, and most recently, creating their own "bookmarkers" from paper using watercolors and stamps. In November, the children also began making their own "anti-stress slime" in various colors, which proved to be a particularly enjoyable activity for them.

As the Afterschool Club prepares for the upcoming Christmas season, the children will be working on crafting their own Christmas ornaments using white modeling clay. They are eagerly anticipating the opportunity to create personalised decorations for the Christmas tree!

HALLOWEEN FOXCLUB

Our Halloween Foxclub brought together children from Foxhill and neighboring villages for three days of spooky excitement! From creative costumes to Arts and Crafts, we shared laughter and celebrated Halloween in style.

**Sign up for the
Winter Foxclub
2.01. - 5.01.2024**

**Start into the new year with
Natalie and Anna at the
Winter Foxclub!**

**Our holiday programme is in
full swing, featuring lots of
joyous activities for all ages.**
